

THE GAYLE GAZETTE

May 2024

*"...and (Jesus) sent them out to preach the kingdom of God and to heal the sick,"
(Luke 9:2, NIV).*

We've returned safely from Togo! PTL! Only because of your prayers! We had a truly blessed time, and we got together with just about everyone who we needed/wanted to. It was such a lift to our hearts, to see the ministries going strong, but especially our national friends/ministry partners taking more and more lead/ownership. Enjoy some of the photos of His Ministry in Togo!

We're heading off on April 30th, to Asheville, NC for the National Christian Medical Dental Association Conference. Thank-you as always for your prayers and financial support that sustain us!

Left—We started our trip in Lome and got to meet Dr Liza, Sarah and Jake—all with the Post Residency Program on their way to Greece for a med-

Another stop, was in N. Togo where we got to attend Pasteur Jeremie and Elise's church plant. Of course, they wanted to hear from Michael! Cheryl's head is covered out of respect in a Muslim community.

As soon as Michael went to the hospital for rounds, the nurses came running about a premature birth! The baby on the right was born at 28 weeks gestation. Since Michael has given up his medical license, he was an "assistant" to Dr. Ken Crowe, who has come out almost every year for 19 years, with his wife Terry! Michael says that it was just like riding a bike! It all came back to him! So far the little girl is still alive and growing slowly!

Bottom left: a sweet reunion with Pasteur and Madame Gaglo, who was also the first Togolese "Physician Assistant" for HBB.
 Top (photo by Judy Bowen): a special time with Christian Resource Center and Print Shop staff where Cheryl worked for many years.
 Photo next to large group photo: A picture of the original Tsavie church plant group (minus Cheryl who was taking the photo). The church is still going strong and preaching God's word.
 Photo on the right: Michael going over the hospital upgrade/expansion plans again with the Touchstones who are leading the project in Togo.
